About This Game

So you think you are pretty good at throwing ping pong balls into plastic cups? Well we will see about that hot shot. Welcome to VeeR Pong, where you can test your skills against anyone at any time of day, or if everyone is passed out play against a bot who will keep your skills in check.

Features

- **Multiplayer:** Seriously, what good is a party game that you can't play with other people in real time?! VeeR Pong supports multiple modes of multiplayer because sometimes you want to chill, and other times you want to compete.
- **Fully Active Gameplay:** Want to adjust your angle, take a step to your side. Want to add spin to your shot, twist your controller in that direction as you shoot.
- **True to Life Scale:** Objects in this game have been meticulously crafted to achieve the same scale as they would be in the real world.

- **Casual and Competitive Modes:** Play with whatever custom house rules (bounce shots, "death" cup, island cups, etc) you want in FreeForAll where rules are enforced by the people playing the game. Looking for something more competitive and less up to interpretation, then play in Competitive Mode where a slightly modified version of the rules used in the World Series of Beer Pong are automatically enforced.

Title: VeeR Pong
Genre: Casual, Simulation, Sports
Developer:
Ian Slattery
Publisher:
Ian Slattery
Release Date: 29 May, 2017

7ad7b8b382

Save yourself $9.99 and Stick with the demo!

The full game is buggy as heck and unplayable in its current state. I have W7 x64 Ultimate. i5 4670K OC @ 4.4ghz. GTX 1070 FTW. 16GB RAM. 500GB Samsung SSD. No problems with any VR games with my VIVE.

When you try to play against AI, the game bugs out. Framerate drops. Nonstop stuttering. Flashes of white across the screen. And the blank SteamVR background, chaperone, and VIVE controller will randomly appear and disappear during play.

When you switch it to practice mode, the game runs smooth as silk.

To top it off, it seems the developer isn't around so expect seldom updates if any.. Save yourself $9.99 and Stick with the demo!
